From shelter to a forever home! Waggin' Trails Rescue Foundation was founded to help the animals who face euthanasia in the California shelter system. The problem of homeless animals in California is staggering. In an effort to help alleviate the number of displaced animals, Waggin' Trails Rescue Foundation was established. The mission of our foundation is to safely and responsibly rescue as many animals as possible. For years, we have been transporting animals to areas such as Oregon, Washington, Idaho and Western Canada where shelters are less impacted by an overabundance of abandoned pets and these animals are readily adopted. We partner with organizations that share our rescue philosophy and procedures that speak to a high standard in order to ensure these worthy animals are placed in excellent homes.

Meet a few of our success stories and the families whose lives they've enriched.

- ## Who We Are

In a word, Waggin' Trails Rescue Foundation is a lifesaver. We rescue and transport companion animals scheduled for death due to lack of space in California shelters, as well as other neglected or abused animals. Waggin' Trails Rescue Foundation has volunteers throughout the state of California, and friends and partners in many states and Canada.

Waggin' Trails Rescue Foundation is run by volunteers and 100% of the proceeds go to the rescue of many loving animals that have been abused, neglected or simply forgotten. Many wait in shelters for their someone to come by and take them home.

- ## What We Do

The problem of homeless animals in California continues to worsen in this challenging economy. In addition to our continued work with special needs animals, we have been called upon to act to help the ever-rising population of animals who beg for rescue. We transport animals to areas such as Oregon, Washington, Idaho and Western Canada where shelters are less impacted and these animals are readily adopted. We partner with organizations sharing our rescue philosophy and procedures that speak to a high standard in order to ensure these worthy animals are placed in excellent homes.

## • How You Can Help

Sadly, California shelters are inundated with animals each day. They are brought to shelters from all sorts of unfortunate situations. Stray animals are picked up while roaming streets and litters of puppies are placed on doorsteps of shelters. Breeders drop off their animals not up to their standards. Often families have no choice and have to give up their loving animals because they can no longer afford the food and care they need.

Support Waggin' Trails Rescue Foundation by attending our fundraising events throughout the year. When shelters call upon us to transport animals that have been in the shelter and are out of time, help us foster

these loving animals until the next transport is in place and they may be transferred to permanent new homes in other states.

You can help by fostering an animal when their time is up at the shelter until the next transport is organized. You can help with visits to vets prior to transports. You can help with a donation to Waggin' Trails Rescue Foundation and attending our fundraising events throughout the year.

If you'd like to volunteer or learn more about when our fun fundraising events take place, please contact us by email:
